KURZ MOBILE SILOS

... MAKE CONSTRUCTION SITES MORE PROFITABLE.

Custom-made mobile silos are designed and constructed in high-quality, practically oriented form for use at large-scale construction sites, for the preparation of railway lines and for all projects where promptness and flexibility are demanded. At **KURZ**, you order on a custom-made basis. We will then plan and make your silo on time at a keenly calculated price.

The **KURZ MOBILE SILO** is a company-own development, which has proved its reliability for many years under the toughest construction site conditions.

If requested, **KURZ** delivers the silo by lorry, and then sets up and connects the silo. You can start working – immediately.

For you, this means: no delays, and no complicated installing and connecting work.

The **KURZ MOBILE SILOS** are cost-effective and enable a quick start of production operations.

All silos are fully equipped with:

- Roof edge railing
- **KURZ** folding ladder
- Dust removal filter
- Filter control system (automatic)
- Overfill protection
- Dovetail limiters
- Filling level display (0 -100 %)
- Butterfly valve (manually operated)
- Optional conveyor worm
- Quick-acting closing devices for electric current and compressed air
- Optional mobile foundation
 - steel
 - pre-cast concrete elements
